ECO self-closing built-in
one-water shut-off cock
for urinal with round wall
plate

5A9C24C00

Proton

With its minimalist design, Proton is also the first Rimless urinal in our catalogue. Its design with thin and well-defined walls, without rim, prevents dirt from building up and allows for easy cleaning. Available in electronic version that integrates the motion sensor for contactless flushing, and in conventional top or rear-feed versions for mechanical flush valves.
